

GRADUATE STUDENT-POSTDOC-STAFF SEMINAR SERIES

Fridays at 12:30 p.m. Room 1330 ATRB

Fall 2022

Please Note: Our first seminar will start at 12:00 pm, the rest start at 12:30 pm

<i>Date</i>	<i>Presenter</i>	<i>Title</i>
August 26 (12:00 pm-1:00 pm)	Christian Montes-Serey (Justin Walley Lab)	Integration of multi-omics data reveals interplay between brassinosteroid and Target of Rapamycin Complex signaling in Arabidopsis
September 30 (12:30 pm-1:30 pm)	Ching-Yi Liao (Bassham lab)	The interplay between autophagy and phytohormone brassinosteroid signaling in Arabidopsis
October 28 (12:30 pm-1:30 pm)	Radwa Barakat (Espin Palazon lab)	Identification of transcription factor binding sites by CUT&RUN in Zebrafish
November 18 (12:30 pm-1:30 pm)	Angela Bunning (Gupta Lab)	Exploring phosphoproteomics data to understand regulation of microtubule-dependent kinetochore conditions
December 16 (12:30 pm-1:30 pm)	Abbigail McCune (Espin Palazon lab)	The role of Jak/Stat signaling in Granulin mediated myeloid differentiation

Join meeting:

In-person: Room 1330 ATRB

IOWA STATE UNIVERSITY
