

# GDCB Seminar Schedule

## Fall 2018

Aug. 28	<b><u>Cheryl Rosenfeld</u></b> University of Missouri	Topic — placental structure (Host: <i>Geetu Tuteja</i> )
Sept. 11	<b><u>Bruce Goode</u></b> Brandeis University	Topic — microtubules and actin (Host: <i>Moe Gupta</i> )
Sept. 18	<b><u>Rebecca Roston</u></b> University of Nebraska-Lincoln	Topic — membrane remodeling (Host: <i>Marna Yandeau-Nelson</i> )
Sept. 25	<b><u>Naoki Yamanaka</u></b> University of California, Riverside	Topic — ecdysteroids and insect development (Host: <i>Hua Bai</i> )
Oct. 2*	<b><u>Robert Philibert</u></b> University of Iowa	Research focus — behavioral genetics *IG Seminar Series
Oct. 9*	<b><u>Guanjing Hu</u></b> ISU Ecology and Evolutionary Organismal Biology	Research focus — plant evolutionary genomics *IG Seminar Series
Oct. 23*	<b><u>Hong Qiao</u></b> University of Texas at Austin	Research focus— molecular biosciences *IG Seminar Series (Host: <i>Yanhai Yin</i> )
Oct. 26*	<b><u>Krishanu Saha</u></b> University of Wisconsin	Topic — biomedical engineering *Special Friday Seminar 4:10 p.m. (Host: <i>Molecular, Cellular and Developmental Biology Graduate Student Organization</i> )
Oct. 30*	<b><u>Kate Meyer</u></b> Duke University	Research focus — RNA modifications *IG Seminar Series
Nov. 6	<b><u>Kerry Bloom</u></b> University of North Carolina, Chapel Hill	Topic: microtubule/spindle function (Host: <i>Moe Gupta</i> )
Nov. 13	<b><u>Laura Schulz</u></b> University of Missouri	Topic — early trophoblast differentiation (Host: <i>Geetu Tuteja</i> )
Nov. 20	<b>Fall Break</b>	
Nov. 27	<b><u>Davit Potoyan</u></b> ISU Chemistry	Topic — theoretical chemistry and biophysics (Host: <i>Steve Howell</i> )
Dec. 4	<b><u>Ian Schneider</u></b> ISU Chemical and Biological Engineering	Topic — cellular and molecular mechanisms (Host: <i>Steve Howell</i> )

**Tuesdays at 4:10 p.m.**  
**Room 1414, Molecular Biology Building (MBB)**
